TOUR OPTIONS

There are three circuits and several routes which vary depending on the season. These are the two, available year-round, that we recommend for the fullest experience:

2) CITADEL TOUR + HIKE (add-on \$)

(RUTA 3-A / 4 to 5 hours)

- 1st half of citadel tour (1 hour)
- Hike **Huayna Picchu Mountain** (2.5 hours)
- 2nd half of citadel tour (1 hour)

Enjoy the reward of a condor's-eye view of the citadel from atop the *Young Mountain* (Machu Picchu means *Old Mountain*). This is a challenging hike due to its steep and narrow steps. You must pass through a short tunnel on the way down.

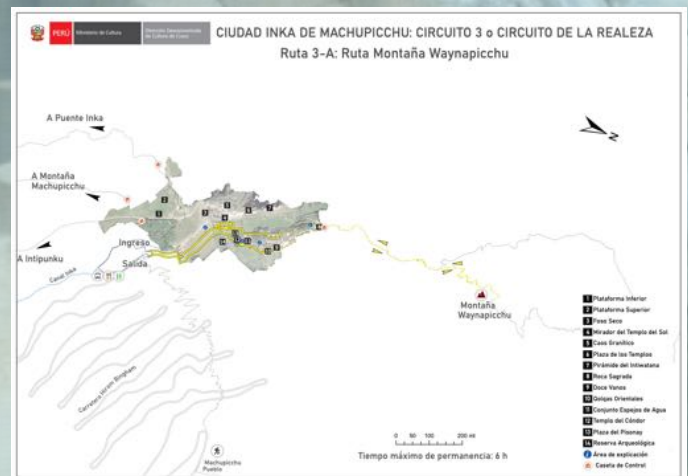

- Not recommended for those with acrophobia and/or claustrophobia -

1) STANDARD CITADEL TOUR

(RUTA 2-A or 2-B / 2.5 to 3 hours)

With these routes, you will visit the entire urban area of the Inca City of Machu Picchu. From the upper platform, you'll have the opportunity to take "classic" photos with the citadel and Huayna Picchu Mountain in the background.

If these routes are sold out, we will choose the next best citadel option: RUTA 3-B.
